

Pumpkin Spice Sugar Scrub

- 2 cups brown sugar
- 1 cup sugar
- 2 tablespoons pumpkin pie spice (reduce if desired for less scent)
- 1 cup sunflower oil (or Safflower or Vegetable Oil)

Place ingredients into a bowl. Mix until well blended. Store in airtight container.

This recipe makes enough for a pint jar and can be used anywhere on your body. Just moisten your hands, scoop out a spoonful and rub in a circular motion on you moistened skin. Rinse and enjoy.

Caution - If using in the shower the oil will make the floor slick.
